

How to clean your reusable eye protection (visor/goggles)

Do not touch the front of the mask/eye protection as it is contaminated

Remember to write your name in indelible ink on your eye protection

1 Removal of PPE

- Remove gloves and apron
Perform hand hygiene after each patient contact
- Once clinical session complete**
Remove eye protection and place on trolley
- Remove mask from behind

2 Inspection of eye protection

- Perform hand hygiene
- Put on clean apron and gloves
- Inspect eye protection - if not intact or there is visible contamination with blood / body fluids discard

3 Cleaning of eye protection

- Clean eye protection with detergent wipe then an alcohol wipe. Repeat this cleaning process for the elastic/strap
- Clean trolley with an alcohol wipe
- Remove gloves and apron
Perform hand hygiene
- Clean visor to be kept in clear plastic bag

COVID-19 APPROVED GUIDANCE

OFFICIAL SENSITIVE

Note: This guidance has been fast-tracked for approval for use within NHSGGC

Covid-19 How to clean your eye protection (visor/goggles)

This guidance is intended to assist healthcare professionals in the choice of disease-specific treatments.

Clinical judgement should be exercised on the applicability of any guidance, influenced by individual patient characteristics. Clinicians should be mindful of the potential for harmful polypharmacy and increased susceptibility to adverse drug reactions in patients with multiple morbidities or frailty.

If, after discussion with the patient or carer, there are good reasons for not following guidance, it is good practice to record these and communicate them to others involved in the care of the patient.

Version Number:	3.0
Does this version include changes to clinical advice:	No
Date Approved:	15 th June 2021
Approval Group:	NHSGGC Covid-19 Tactical Group (Acute)
